

# AI Reporting Workflow

From Raw Sales Data to Executive Business Review

A Portfolio Project in Automated Data Intelligence

---

# Executive Summary

Overall business health is strong with stable revenue growth. However, efficiency varies significantly by channel.

The **West Region** is the primary growth engine, while **LinkedIn** lead quality remains a significant budget risk.

Immediate reallocation of marketing spend is required to maintain profitability margins and prevent sales team burnout.

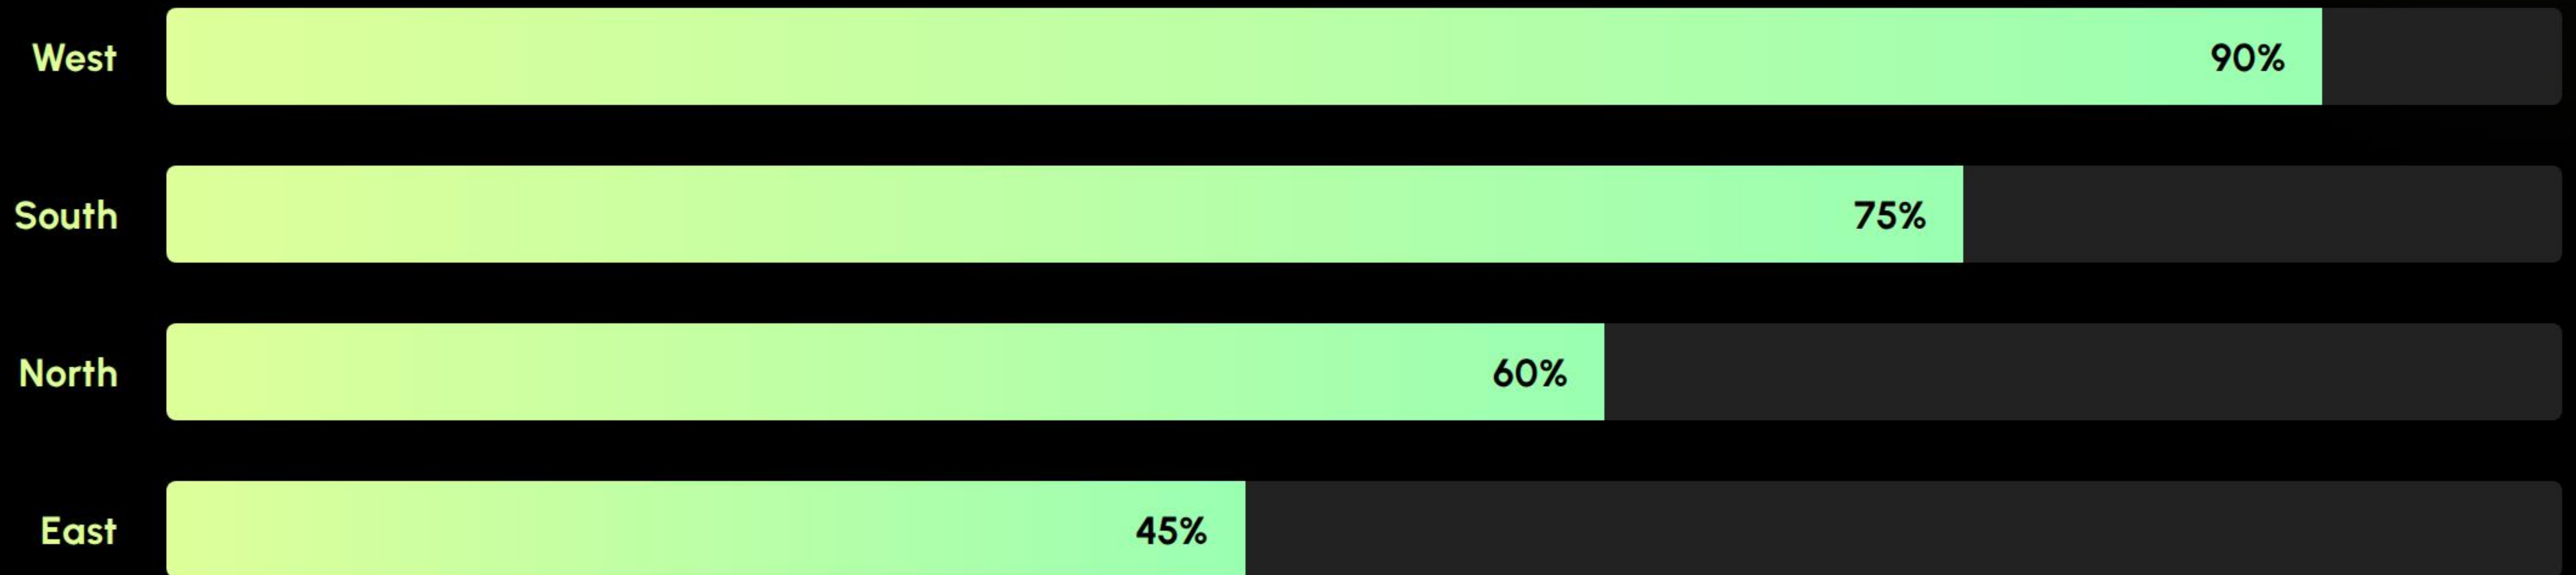

# Performance Metrics

| Metric                    | Value  | Business Meaning                                  |
|---------------------------|--------|---------------------------------------------------|
| Lead-to-Demo Conv.        | 24.5%  | Below target (30%); high top-funnel drop-off.     |
| Demo-to-Deal Win Rate     | 21.2%  | On track; high efficiency in closing sales.       |
| Customer Acquisition Cost | ₹2,850 | Over budget due to low-quality lead sources.      |
| Revenue Per Lead          | ₹1,120 | Strong; lead value is high despite volume issues. |

# Regional Efficiency

West region shows 2x conversion efficiency compared to East. Recommendation: Invest in West.

# Strategic Action Plan

## Pivot Budget

Move 20% of LinkedIn spend toward Referral programs to lower CAC and improve lead quality.

## Scale West

Increase sales headcount in the West region to capitalize on high conversion rates and prevent burnout.

## AI Scoring

Implement AI-driven lead scoring to filter low-intent leads before they reach the sales team.
